

Distribute **Your Content**

Whether you need static materials or just created customized collateral using our web applications, MultiAd can complete the marketing process with our superior print and fulfillment solutions. With a wide array of offerings, our solutions will ensure your content is **delivered with impact**.

Print Solutions

Ideal for short-run materials, MultiAd's digital printing combines high-quality output with quick turn-around and low cost. Realize efficiencies when you eliminate excess waste and print just the quantity you need. Digital printing also provides a way to communicate one-on-one with your targets. By leveraging your customer data and tailoring your message to an individual level, you'll engage your customers and increase your response rate.

For large print runs, MultiAd utilizes sheet-fed offset presses that provide superior quality to meet the needs of clients such as Minor League Baseball, U.S. Soccer, Big Ten Conference, Stanley Hand Tools and Novartis. Whether it's catalogs, direct mail or coupons, our offset printing delivers your material affordably and efficiently.

Warehouse & Fulfillment

If you're looking to move materials offsite, MultiAd can house and fulfill on-demand. We guarantee quick turn-around of orders and the most efficient shipping options.

- Ability to handle daily shipment of orders
- Secure facility with electronic surveillance system
- E-commerce ordering capabilities
- Order tracking
- Reporting functions

Mailing Services

In addition to printing and storing collateral, MultiAd can distribute your materials to your target audience. Supply MultiAd with your desired mailing list or purchase a list of your desired demographics through our industry partner Accudata.

Our onsite USPS Certified Mailpiece Quality Control Specialist will ensure that your mailing pieces are ready for distribution by performing various list cleansings and eliminating duplicate fields, guaranteeing you will save money and reduce waste by minimizing the number of returned mailings.
